

A FINANCIAL INTEGRATION KIT FOR UK ETHNIC COMMUNITIES.

INTEGRA will create useful methods to help you improve your knowledge and understanding of money.

INTEGRA is developing a "Migrants' Integration Kit - Basic Language for Dealing with Financial Matters" containing financial terminology, a financial glossary and a guide with information on financial institutions and sources of financial information.

INTEGRA will create an active web portal for integrating all the useful financial information, on-line training, contacts and networks information.

INTEGRA works together with social partners, such as migrant communities and financial institutions, to create a Europe wide network of relevant organisations in order to reach and help migrants.

INTEGRA trains enthusiastic trainer representatives from migrant communities who will transfer the language knowledge to other members using the integration kit.

The INTEGRA project has been funded with support from the European Commission. This project runs for two years and is being developed by partners from Lithuania (coordinator), Great Britain, Ireland, Germany, Spain, Romania, Poland, Greece, The Netherlands, Turkey and Belarus.
